Objective: In a "roundtable" discussion group and given POLST, DNR orders or advanced directives, EMS providers will discuss and demonstrate appropriate assessment, treatment and interaction given at least three death and dying scenarios (to include compelling reasons, if applicable), applying the guidelines outlined in CBT 931-EMT 12 and EMT Patient Care Guidelines.

Roundtable Exercise

- This exercise for CBT 931-EMT 12 Death and Dying course with a roundtable discussion panel was completed.
- The above individual met standards regarding specific knowledge of:
 - advanced directives
 - POLST
 - DNR orders
 - compelling reasons

The exercise contained:

- A general explanation of the physiology of death (as covered in CBT 931-EMT 12)
 - cessation of pulse and breathing
 - cool/cold body temperature
 - dependent lividity
 - rigor mortis
- An explanation/discussion regarding (as covered in CBT 931-EMT 12)
 - withholding resuscitation
 - compelling reasons
 - the dying patient
 - palliative measures (*comfort care*)
- Legal/ethical concerns (as covered in CBT 931-EMT 12)
 - why families call 911 (*when in doubt, resuscitate*)
 - withholding CPR
 - advanced directives
 - POLST

This exercise/review evaluation fulfills the practical requirements for this course.

COMMUNICATION AND DOCUMENTATION

MEETS STANDARDS (RECERT)
